

Company Profile

M S REFRACTORIES

Manufacturing Company

2023

Manufacturing refractories on a long tradition & committed to superior quality.

From the Director's Desk

Dear Reader,

I am proud and honored to introduce you to **M S Refractories**. A refractories manufacturing company, from Wankaner, Gujarat, India. We as a company are manufacturing refractories since 1980's, it's the heritage that my grandfather **Mr. Keshavlal Ambaliya** left with me. He started the first manufacturing unit from scratch with the passion and commitment to serve the industries with quality refractories.

Our mission towards the vision is to serve the industries with quality refractories and achieve prosperous milestones.

I am confident that M S Refractories will continue to serve the industries with the commitment of the quality and prompt service.

Warm regards,

Monil Ambaliya - Director
M S Refractories

**We serve our
customers at
home and abroad
very sincerely.**

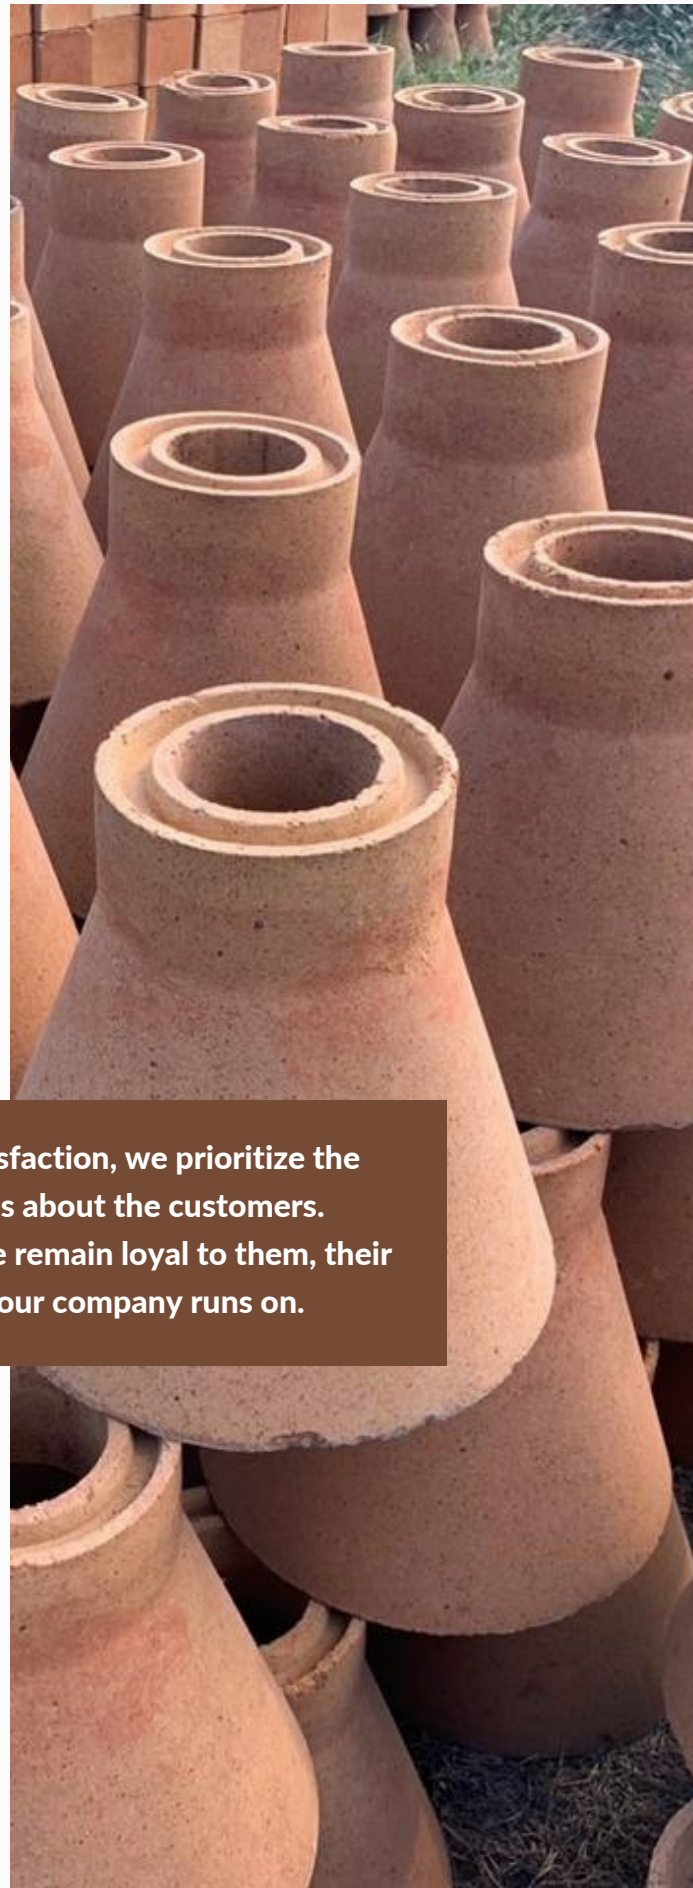

About Our Company

Our story begins in 1980's along the rise of ceramic industry in the ceramic capital - Morbi, it was here where **Mr. Keshavlal Ambaliya** opened the first manufacturing unit, offering quality refractories.

In 2000's from one manufacturing unit we grew to two. The business was at its peak, new industries were being set up, offering new business opportunities for the growth. In 2020's serving and growing as the future holds the promise of success therefore, we moil to become essential to our customers, supply quality refractories to help them achieve their aspirations.

From refractory requirements to product satisfaction, we prioritize the needs of the customers, everything we do is about the customers. We moil to keep our customers at their best, we remain loyal to them, their requirements and their time. That's what our company runs on.

We adhere to the principle of equality and mutual benefit, comply with contract and keep the promise.

Our Vision

To provide superior quality refractory products that: CUSTOMERS prefer for their business and recommends forward, TRADERS select for their clients, and EMPLOYEES are proud of.

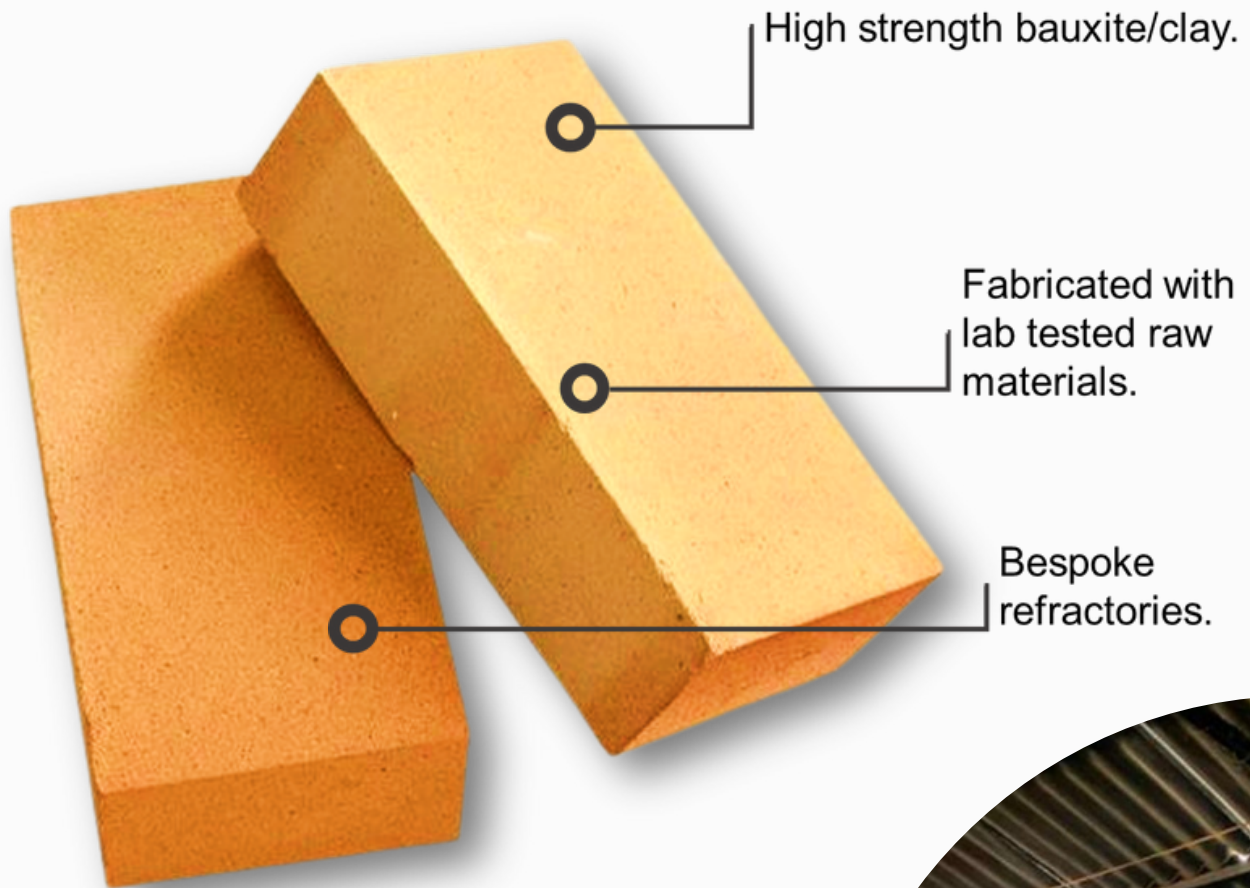

How We Do

Raw minerals used in manufacturing the refractories are produced globally and therefore only the finest quality minerals are used to produce quality refractories after meeting our rigorous quality requirements in the in-house lab.

At M S Refractories the refractories are manufactured to industry specifications & standards. The production process is strictly followed under all the safety protocols:

1. Sourcing & Testing
2. Production & Testing
3. Prompt Delivery
